Modern MOM

Originally from Gulfport, Mississippi, Angela Vecellio moved to Palm Beach 14 years ago after attending Ole Miss and then earning her doctorate of chiropractic at Life University. Also trained in nutrition, pediatrics, weight loss, applied kinesiology, physiotherapy, and more, Vecellio established Palm Beach Medical, a multispecialty practice where she offers a variety of services from chiropractic care to cosmetic enhancements. When not at the office, she's actively involved with the Junior League of the Palm Beaches and the American Heart Association. Vecellio and her husband, Michael, whose family construction company is also based locally, stay busy with their two sons, Tripp and newborn Stafford. They also travel regularly to family homes in Mississippi, West Virginia, Vail, and Manhattan. —Skye Sherman
